SUBHAM KR SHAW

Kolkata , West Bengal Phone | Gmail | linkedin | Leetcode| portfolio

---

Education : B.Tech in Computer Science Engineering (current CGPA : 8.00)

Amity University Kolkata | Expected Graduation: 2027

Technical Skills

- **Programming Languages:** Python, JavaScript, TypeScript, C, C++, Java
- **Frameworks & Libraries:** React, Node.js, Next.js, Express.js
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Cloud & DevOps Tools:** AWS, Docker, Kubernetes, GitHub Actions
- **Web3:** Ethereum , Solidity
- **Other Tools:** Firebase, Supabase, Prisma, Appwrite

Projects

1. voice to text/text to voice(Voice Recognication):This project uses JavaScript and the Web Speech API's SpeechSynthesisUtterance to convert text to speech. It functions like a simple Google Assistant, helping users with pronunciation, accessibility, and voice feedback. Ideal for educational tools or voice-based interfaces, it enhances user interaction through synthesized speech.

2. lazarev(inspired by):I created a website inspired by Lazarev's design style using GSAP for smooth animations, JavaScript for dynamic interactions, and modern frontend techniques. The site delivers a high-end user experience with sleek transitions, scroll effects, and interactive UI elements, showcasing advanced web design and development skills.

Work Experience

WEB Developer | software Developer
- Developed several website like lazrev(inspired website),search engine,voice recognication
- solve leetcode problem of more than 150+ questions .
- strong knowledges of git &github.

Achievements

- solve leetcode with 150+ problems and maintaining badges etc..

Languages : English (Fluent) , Hindi(Fluent) , French(Intermediate)

Additional Information

- Passionate about **building scalable applications, contributing to open-source, and exploring AI-driven development**.
- Open to **internships and collaboration opportunities** in software engineering and Web3 development.
